MORNING:
Welcome Circle,
Therapies and
Innovative Activities

MID-MORNING:
Creative Play,
Storytelling

AFTERNOON:
Learning , Lunch,
Nap Time

EVENING:
Outdoor Play,
Pickup

SPEECH THERAPY

Communication and speech-related challenges vary from person to person. Some special individuals are not able to speak. Others love to talk, but struggle to hold a conversation or understand body language and facial expressions when interacting with others. Hence, RUADT initiated Speech-language therapy and works on challenges with language and communication. Our guiders help people with speech delay and implement individual strategies to improve their verbal, nonverbal, and social communication.

YOGA

Yoga is a beneficial therapeutic practice for children with special needs, offering a holistic approach to development that improves physical, emotional, and cognitive skills. RUADT guides children to perform specialised yoga which helps them with focus, coordination, and body awareness while also reducing stress and hyperactivity. Key components, RUADT follows include gentle poses (asanas), breathing exercises (pranayama), and relaxation techniques.

HEALTH**

EVALUATION

Evaluation for special education services is a comprehensive process to determine if a child has a disability and needs specialised instruction. RUADT, involves various methods, including tests, observations, and a review of academic records, with parental consent required before it can begin. The evaluation assesses a child's strengths and challenges to determine if they qualify for services under one of the recognised disability categories.

COMPREHENSIVE APPROACH

SPECIALISED ASSESSMENTS

HIGHER SECONDARY ACHIEVEMENTS

RUADT has made a significant impact on higher education opportunities for children with special needs; more than 10 students have successfully completed their higher studies. Notably, they are the first generation in their families to achieve this level of education, representing a major step forward in empowerment driven by RUADT's efforts.

PHYSIOTHERAPY

RUADT provides therapy for children with cerebral palsy and students with mobility challenges. Targeted physiotherapy exercises strengthen muscles and help stabilize physical movements. Regular therapeutic sessions for young children support the achievement of developmental milestones. More than 50 students consistently benefit from RUADT's physiotherapy sessions.

CELEBRATIONS

RUADT celebrated "Chellamae Chellam" with ROTARIANS in Theni. Many local guests joined the festivities. During the program, our children performed in dance, singing, and drama events, and also showcased their unique curriculum abilities. The guests, impressed by our children's skills, gifted lots of sports and educational materials to them.

PARENTS TEACHERS MEETING

RUADT conducts a monthly Parents' Meeting and maintains strong relationships with community members. During these meetings, teachers share the activities conducted throughout the month and discuss the challenges faced and the progress made by the children. Additionally, counseling and motivational sessions are organized by special educators on the same day.
